If you would like any advice or even a quotation on your church heating project, give us a call today on **0161 211 6955** and our friendly team will be happy to help.

St Winifred's Church, Cumbria

Saint Winifreds Church in Cumbria was undergoing major restoration works to the exterior when it was decided to also upgrade the church heating system. The warden contacted us to reduce the running cost, control the church heating better and give an even heating balance throughout the building.

St Jame's Church, Reading

St Jame's Church in Reading required a lot of work to fix its leaking system that was costing thousands to run. Our engineers were called in fix the problems, reduce the costs and improve efficiency.

St Clements Church, Manchester

The church contacted us to install new radiators, pipe work and boilers that would be suitable for their requirements. The system was designed to replace all the old heaters and the old flue holes needed to be patched up with matching stone work.
